## **DETAILED ACTION**

### ***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond Mah on November 5, 2003.

The application has been amended as follows:

Claim 1, line 19: the word - -and-- has been inserted between the comma and " | A - D | ".

Claim 4, line 2: "the side" has been changed to --a side--.

Claim 5, line 4: the phrase --and wherein-- has been inserted after the comma.

### ***Drawings***

2. The drawings filed on June 29, 2001 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

***Allowable Subject Matter***

3. Claims 1-7 are allowed.
4. The following is an examiner's statement of reasons for allowance: the applicant's amendment to the claims has overcome the rejections under the prior art of record. The prior art of record fails to teach or suggest a spark plug having the claimed structure, and specifically including the limitation of a second discharge member having a surface confronting an outer circumferential surface of a first bar discharge member which protrudes along an axis of the central bar electrode, and having the claimed dimensions of the spark gap and discharge members.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
